

WizeFloor

Move | Play | Educate

WizeFloor was created by the Alexandra Institute

What is the WizeFloor?

Collaboration, communication and knowledge sharing

The **WizeFloor** is an interactive floor that promotes collective and differentiated learning styles and needs through play and physical activity.

From a projector in the ceiling different learning games and activities are projected onto the floor.

The children use their hands and feet to interact with the floor allowing them to do the activities.

Multiple children can play simultaneously. The WizeFloor is especially targeted at children from 3 to 12 years of age and special needs.

reddot design award*

* WizeFloor is a rebranding of Wisdom Well, which has received the Red Dot Award

Collaborative learning

“WizeFloor provides a fantastic opportunity for collaborative learning with many of the activities requiring teamwork.”

Teacher, Ipswich, UK

Testimonials

“

Creating their own learning games

“One of the major benefits of WizeFloor is that teachers and pupils at our school can easily create their own learning games for each subject and level.”

Pedagogical IT Counsellor, school, Denmark

“ Endless potential

We found the WizeFloor wasn't just an interactive floor, it was so much more with endless potential within our school”

ICT Teacher, SEN school, Northern Ireland

“ An exciting upgrade

“WizeFloor is an exciting upgrade to our school which has improved the motivation, concentration and collaboration between our children.”

Pedagogical IT Counsellor, school, Denmark

“

Important tool within our daycare

“WizeFloor is an important tool within our daycare center and the perfect way to bring together the children across all ages and gender.”

Daycare professional, Denmark

“ Concentration, joy and motivation

“I love to see the concentration, joy and motivation emerging from the children while using WizeFloor.”

Daycare professional, Denmark
